

## SOCIAL THINKING CAMP

Social Thinking permeates every human relationship because it is our meaning-maker when we interact with one another. Some individuals do not acquire the rules of Social Thinking so readily and thus may have difficulty making sense of the world around them.

Based on the *We Thinkers (Vol. 1)* curriculum written by Ryan Hendrix, Kari Zweber Palmer, Nancy Tarshis and Michelle Garcia Winner, we will be addressing some fundamental Social Thinking components in a fun, exciting and relational way. It will be conducted by Oasis Place's Psychology Team. This is an INCLUSIVE camp and we welcome typically developing children and children with social learning weaknesses to simulate a typical learning environment. As this is a language-based approach, it is most suitable for children with normal or near-normal language development. On the final day of camp, parents are invited to attend the last section to learn what their children have experienced during the past couple of days.

### **Social Thinking® for Early Learners**

Social Thinking® is a term coined by Michelle Garcia Winner, CCC-SLP and represents a coordinated teaching framework of curricula, vocabulary, teaching tools and strategies for individuals aged preschool through adults. Learn more at [www.socialthinking.com](http://www.socialthinking.com)

Using a combination of stories, music, dramatic play, art and craft, and life skills activities, some of the social codes we will be unlocking include:

- Understand what it means to be part of a group
- Our thoughts and feelings
- Listening with your whole body

Bring a friend or a sibling as Social Thinking involves everyone. The lessons and vocabulary learned will benefit your child's interactions with others. Sign up now for an exciting experience of learning!

Venue: Oasis Place

Dates: 5th - 10th December 2017

Time: 9am-12pm

Cost: RM530 per child ; Additional RM265 for sibling(s)

Suitable age: 5-8 years old children

\*Social Thinking® for Early Learners requires children with normal to near-normal language development
