

SOCIAL CODE BREAKERS CAMP

Social Code Breakers draws concepts from Social Thinking to help children discover social rules. Social Thinking permeates every human relationship because it is our meaning-maker when we interact with one another. Some individuals do not acquire the rules of Social Thinking so readily and thus may have difficulty making sense of the world around them.

Based on several core concepts from the We Thinkers! (Vol.2), written by Ryan Hendrix, Kari Zweber Palmer, Nancy Tarshis and Michelle Garcia Winner, we will be addressing some deeper Social Thinking concepts. The main learning and teaching approach is through fun, exciting and relational ways. It will be conducted by a team of therapists from Oasis Place.

This is an INCLUSIVE camp and we welcome typically developing children and children with social learning weaknesses to simulate a typical learning environment. As this is a language-based approach, it is most suitable for children with normal or near-normal language development. Parents are invited to attend the last section of each day to learn what their children have experienced during the camp.

SOCIAL THINKING® FOR EARLY LEARNERS

Social Thinking® is a term coined by Michelle Garcia Winner, CCC-SLP and represents a coordinated teaching framework of curricula, vocabulary, teaching tools and strategies for individuals aged preschool through adults. Learn more at www.socialthinking.com

Using a combination of stories, music, dramatic play, and life skills activities, we will be unlocking some of the social codes which include:

- Group collaboration which allows children to learn about themselves and others
- Dynamics of working and sharing space with others

Bring a friend or a sibling as Social Thinking involves everyone. The lessons and vocabulary learned will be benefiting your child's interactions with others. Sign up now for an exciting experience of learning!

Venue: Oasis Place

Dates: 24th - 26th July 2018

Time: 9am-12pm

Cost*: RM530 per child; Additional RM265 for sibling (s)
