

MASTERCLASS

ADVANCED PRAXIS & IDEATION IN TRAUMA, MENTAL HEALTH & SENSORY INTEGRATION

Trainer: DR. TERESA A. MAY BENSON (ScD, OTR/L, FAOTA)

This course explores the relationship between praxis, ideation, and trauma-related mental health concerns, examining how praxis challenges both contribute to and result from trauma, impacting children's regulation, participation, and learning. It includes lectures, live intervention observation, video reviews, and group discussions to support clinical application.

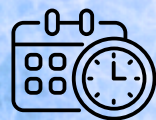

LEARNING OBJECTIVES:

- Analyse interactions between praxis, ideation, trauma, executive functioning and impact on occupational performance and participation.
- Identify praxis, trauma-related challenges and implications for assessment, goal setting, intervention planning.
- Apply sensory integration, praxis, trauma-informed principles to develop evidence-based plans.
- Design trauma-responsive, praxis-focused interventions supporting ideation, emotional regulation, engagement in occupations.

TARGET AUDIENCE:

Ideal for occupational therapists, speech therapists, clinical psychologists, special needs educators, and allied health professionals.
